DATASTREAM

DATASTREAM™ 2.0 - CEMS REPORTING SYSTEM

Introducing our newest reporting software, designed to transform the way you manage emissions data. Crafted with a focus on ease of use and the features our customers require, this brand-new system provides greater speed, efficiency, and functionality to streamline compliance and reporting.
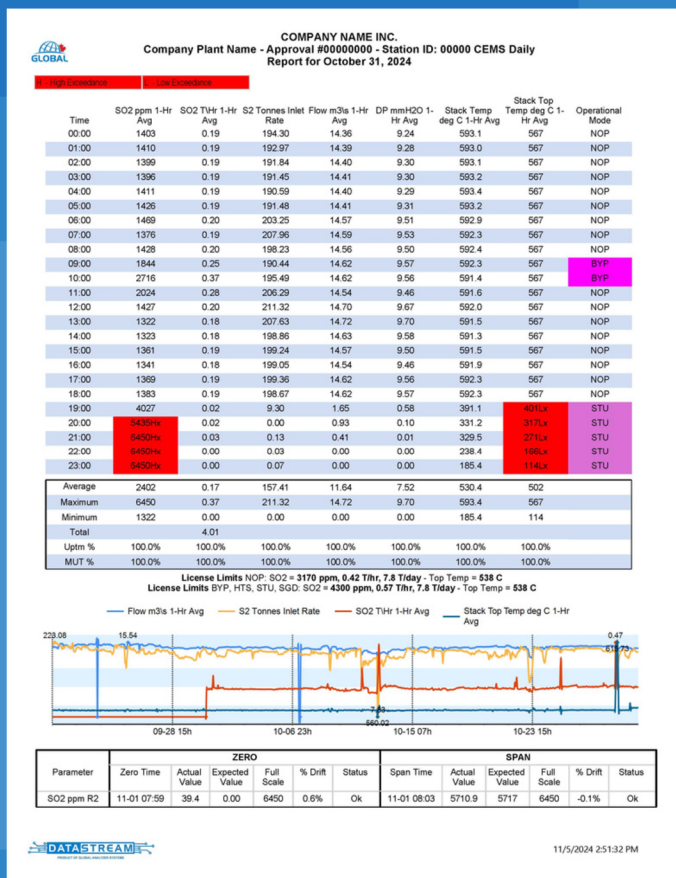

DISCOVER DATASTREAM

- **Unlimited Database Size:** With DataStream 2.0, clients can store an unlimited amount of data, making it the perfect solution for those with extensive data collection needs.

- **Fast Customer Service and Bug Fixes:** DataStream 2.0 features an advanced logging system that enables quick response times and rapid issue resolution. This enhanced system reduces downtime and ensures a seamless user experience.

- **Enhanced Usability:** Enjoy fast access and smooth data manipulation with impressive loading speeds. DataStream 2.0 streamlines your daily operations by minimizing wait times and boosting overall efficiency.

- **Improved Data Integrity:** DataStream 2.0 takes data security to the next level by enforcing strict access controls, safeguarding your data's integrity and ensuring it remains protected at all times.

- **Multi-Language Support:** DataStream 2.0 is fully customizable to any language, making it ideal for diverse global teams and international clients.

- **Greater Security and Accountability:** With mandatory user logins and a comprehensive audit trail, DataStream 2.0 ensures complete data protection and provides full traceability with user details and timestamps.

GLOBAL

INNOVATION IN CEMS REPORTING SOFTWARE

DATASTREAM

Global's DataStream ensures regulatory compliance, verifies data quality, and will provide you with the information you need to to ensure your CEMS is operating at peak performance. DataStream offers a comprehensive, user-friendly solution for CEMS reporting tailored to meet required regulatory standards.

- ✓ Automatic report generation for any desired time period (daily, monthly, quarterly, etc.), addressing client requests for more flexible reporting options

- ✓ Ability to display daily and monthly uptime % on selectable parameters

- ✓ Automatic exports of only the previous month's data, eliminating the need for full-system backups. This reduces storage requirements and offers a more efficient solution for clients relying on our reporting services.

- ✓ Daily reports display the CEMS most current calibration results and statuses, as well as trends for selectable parameters over chosen durations

- ✓ Supports importing data from any DAS/CEMS system and various spreadsheet file types using customizable import functions, enhancing compatibility and flexibility for diverse data sources.

An annual subscription license is required. This license guarantees free access to any new version of DataStream. The subscription also provides:

- Program updates (due to evolving regulations)
- Program enhancements
- Updates to AMD forms

GLOBAL | ABOUT GLOBAL ANALYZER SYSTEMS

Founded in 1996, Global Analyzer Systems Ltd. is a leader in the emissions monitoring industry. We ensure safe and sustainable air by bringing certainty to emissions measurement. We provide a full complement of specialized and customized CEMS solutions and are committed to keeping industry compliant with regulations.
